Information Technology Student | Web & Mobile Application Developer

PROFESSIONAL SUMMARY

Fourth-year Bachelor of Science in Information Technology student with hands-on experience in developing web, mobile, and desktop applications using PHP, MySQL, Java, JavaScript, Dart, and Flutter. Experienced in building database-driven management systems, implementing authentication, designing user interfaces, and integrating backend functionality. Knowledgeable in database design, software development workflows, debugging, and version control. Seeking an internship opportunity to apply technical skills, gain industry experience, and contribute to real-world software development projects.

SUMMARY OF SKILLS

- Develops functional web, mobile, and desktop applications.
- Designs and manages relational databases using MySQL.
- Implements authentication, CRUD operations, and role-based access control.
- Develops user interfaces for web, mobile, and desktop applications.
- Troubleshoots application errors and performs system debugging.
- Understands system analysis, requirements gathering, and technical documentation.
- Adapts to new technologies and learns development tools independently.
- Performs accurate typing and data encoding tasks.

TECHNICAL SKILLS

- **Programming Languages:** PHP, Java, JavaScript, Dart
- **Web Development:** HTML, CSS, JavaScript, PHP
- **Mobile Development:** Flutter, Dart
- **Desktop Application Development:** Java GUI Development (Swing)
- **Database Management:** MySQL, Firebase Firestore, Hive
- **Backend & Integration:** Firebase Authentication, Google Sign-In, Firestore Integration
- **Development Tools:** VS Code, XAMPP, Laragon, Git, GitHub, phpMyAdmin
- **Other Skills:** UI/UX Design, Debugging, Database Design, System Analysis, Technical Documentation, Typing, and Data Encoding

PROJECTS

MoneyMind – Journal & Financial Goal Tracker
Mobile Application Development

- Developing a personal finance application using Flutter and Dart.
- Implementing financial goal tracking, expense categorization, bill management, and mood journaling.
- Integrating Firebase Authentication and Firestore for cloud-based user data management.
- Applying offline-first data management using Hive.
- Developing local financial insights and summaries based on user activity.

Social Pension Management System for Senior Citizens
Web-Based Management System

- Developed a PHP and MySQL-based system for managing senior citizen records and social pension information.
- Implemented senior citizen registration, record management, and pension release monitoring.
- Designed administrative and staff functionalities with role-based access control.
- Integrated database relationships, audit logs, and reporting features.

EDUCATION

Bachelor of Science in Information Technology 2023 – Present
Bohol Island State University – Balilihan Campus

SEMINARS & TRAINING

- AI-Assisted Development: Power, Responsibility, and Real-World Impact – BISU Balilihan Campus (2026)
- Cybersecurity Awareness – BISU Balilihan Campus (2025)
- SAP Learning Journey – Exposure to SAP Cloud ERP, SAP Analytics Cloud, SAP Business Technology Platform, and SAP Integration Suite
